

ADAS

24GHz MIMO Radar Platform

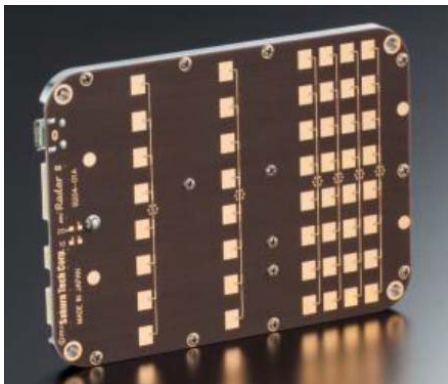

Sakura Tech Corp.

- Adopting MIMO radar to detect multiple objects in azimuth $\pm 45^\circ$ and high resolution.
- Small form factor sensor module (104mm x 76mm x 6mm thickness) including 2Tx4R antenna.
- System Development Kit (SDK): sensor module, Mathworks MATLAB/Liunx libraries an advanced device

Sensor Module

*mi*Radar™ 8

• Weight 70g

360° application with 4 sensor modules

*mi*Radar™ 8 «panorama»
